

# Creating New Structures

To create a new structure, use **Structure | Create Structure** menu or click **Create Structure** button on the Manage Structures page.

You need to specify at least the name of the new structure, and optionally description, permissions and other parameters. See [Structure Details](#) for description of the structure parameters.

When you create a new structure, you become the owner of the structure. Structure owner always has full access to the structure - see [Structure Permissions](#).

Only logged in users who have access to the Structure Plugin are allowed to create new structures. See [Who Has Access to the Structure](#).
