

# Changing Structure Defaults

JIRA administrator can adjust a number of Structure "defaults", settings that apply when the user does not specify a more specific request or option.

- [Changing Default Structure](#)
- [Changing Default View Settings](#)
- [Changing Default Options for the Issue and Project Pages](#)

## Initial Configuration

When Structure plugin is installed, the defaults are configured as follows:

|                                |   |
|--------------------------------|---|
| System Default Structure       | Global Structure - an automatically created structure with ID = 1.                    |
| Project Default Structure      | Not set - all projects use system default.  |
| Default Views Menu             | Preinstalled views <b>Structure, Planning, Tracking, Triage, Entry</b> (on all pages) |
| Default View                   | <b>Structure</b>  |
| Auto-switch (Issue Page)       | Structure with the displayed issue.   |
| Auto-switch (Project Page)     | Off - show the last viewed structure.   |
| Keep structure when navigating | On - When going from structure widget to an issue page, show the same structure.      |
| Auto-minimize Structure Panel  | On - Structure panel initially minimized if issue is not in structure.                |
