

Plugin Manager Says Structure Is Unlicensed

Question

I have a valid license installed. Why do I see Structure as **Unlicensed** or having **Action Required** in the Plugin Manager?

Answer

That may be so because Plugin Manager is not aware of ALM Works licenses. To verify the true status of your Structure license, please check **Administration | Structure | License Details** page. If it shows you that the license is OK, you can safely ignore the status of the Structure license in Plugin Manager.

Structure supports two kinds of licenses — purchased via Atlassian and issued by ALM Works. For details, please see [Setting Up Structure License](#).
