

Current Issue

The **Current Issue** secondary pane is shown in the structure widget on the [Issue Page](#), if the displayed issue is not present in the currently selected structure.

The screenshot displays the JIRA web interface. At the top, the navigation bar includes 'Dashboards', 'Projects', 'Issues', 'Agile', 'Structure', and 'Administration'. The user 'Eugene Sokhransky' is logged in. The main header shows 'Mars Colony / MARS-23' and the issue title 'Security'. Below this, there are tabs for 'Edit', 'Assign', 'Assign To Me', 'Comment', 'More Actions', 'Reopen Issue', and 'Workflow'. The 'Details' section is expanded, showing 'Description' and 'Sub-Tasks'. The 'Structure: Mars Colonization' section is also expanded, showing a tree view of issues. A secondary pane is visible, listing the 'Current Issue' (MARS-2 Security - The National Security) which is not currently in the selected structure. The 'People' section shows the Assignee (Tom) and Reporter (Igor Sereda). The 'Dates' section shows the Due date (24/May/11), Created date (01/Jun/09 3:58 AM), Updated date (Sunday 12:59 AM), and Resolved date (10/Jun/11 3:47 PM).

With this secondary pane you can immediately see that the issue is not in the structure and, if necessary, add it to the structure on the spot [using drag-and-drop](#).

To hide/show current issue, click the Pin icon in the top right corner of the structure widget.
