

Bulk Change

With Structure, you can quickly [select multiple issues](#) and open JIRA's standard bulk change wizard for those issues.

- 1. Select issues by clicking on issue selectors, or pressing *Space*, *Shift+Space*, or other [Keyboard Shortcuts](#) for selecting issues.
- 2. Click **Bulk Edit** action on the panel.

- 3. Standard JIRA bulk operation wizard opens. Select the action you'd like to take and proceed.
- 4. At the end, the browser will be redirected back to Structure Board.
