# Who Has Access to the Structure

Structure is visible only to specific users. Only users who have access to Structure will see the *Structure* menu and other user interface elements provided by Structure.

A user has access to Structure if all of the following conditions are met:

- The user has **Browse** permission on at least one of the projects that are enabled for Structure.
- Structure is enabled for this user:
  - Either Structure is enabled for everyone, or
  - The user belongs to at least one of the enabled groups, or
  - The user belongs to at least one of the enabled roles in an enabled project.

Users who have *Jira Administrators* global permission always have access to Structure.
