

Adding Issues

Issues can be added to a structure from the [Structure Board](#) or their own [Issue Page](#).

Adding issues from Structure Board

On the Structure Board, open the [secondary panel](#) and search for existing issues using the text or JQL search. You can import issues one at a time, or [select multiple items](#).

After selecting the issue(s) you need, add them to your structure using [drag-and-drop](#) or [copy/paste](#).

[illegible]

✔ You can also add issues from another structure. Simply [open the structure in the secondary panel](#), and use drag-and-drop or copy/paste to import issues.

Adding issues from the Issue Page

You can also add issues to a structure directly from their issue page.

From the issue page, select the structure you want to add the issue to, highlight the place you would like to insert the image (it is inserted immediately after the highlighted line) and click the Paste button.

Structure

Manually Built Structure

Key	Summary	Σ Story P	Σ Time Sp	Progress	TP	Assignee	Status	WSJF (Basic)
	Theme Park Construction	118	30w 4h 1	<div><div></div></div>				
	Regulations and							
TP-124	Site preparation	76	6w 2d 7	<div><div></div></div>		Bob	OPEN	293
TP-31	Marketing + PR		15w	<div><div></div></div>		Bob	OPEN	800

 Issues can be added and removed automatically using [Automation](#).
