The provided code is not production-quality and not supported. It is provided as a sample of how one can use Structure API.

The sample code is in public domain – feel free to copy, modify and base your work on it.

## Example List

Sample Plugin	Description
simple-plugin	Very basic demo of using <code>StructureManager</code> .
status-bar-column	Adds a column to the Structure widget that shows a colored bar, depending on the statuses of the sub-issues.
labels-extender	A plugin that adds Labels Extender, which includes issues in the structure based on issue key mentioned in Labels field of the parent issue.
custom-itemtype	A plugin that adds a new item type based on Jira projects and an inserter which adds projects from one or more categories.
user-item-details	A plugin that adds item details panel support for Jira users.
