

API Changes in Structure 3.5

1. Minor Java API Release

With this release we add a few constants and a static method to the Java API. The changes are backwards-compatible.

JIRA Version	New API Version
7.x	16.1.0

See [Structure API Versions](#) for full version information and downloads.

2. Compatible Changes in the Java API

2.1. New constant in `StructureLicenseError`

- `JIRA_EVAL_LICENSE_MISMATCH`

2.2. New constants in `CoreStructureGenerators`

- `GROUPER_AGILE_SPRINT`
- `GROUPER_LINKS`

2.3. New method in `StructureUtil`

- `getBooleanSystemProperty(String key, boolean defaultValue)`
