

Default Transformations

Default quick transformations are shown whenever a structure does not have customized quick transformation or when a panel shows query result, clipboard or other non-structure content.

The following transformations are available:

Transformation	Effect of applying this transformation
Unresolved	Only issues with empty Resolution field are shown.
Assigned to me	Only issues assigned to the current user are shown.
By Assignee	All top-level issues are grouped by Assignee
By Status	All top-level issues are grouped by Status
By Version	All top-level issues are grouped by Version
Sub-tasks	Sub-tasks are added to the structure under their parent tasks
