

# Structure Details

Every structure has the following parameters:

<b>Name</b> <i>(required)</i>	Name is used to identify the structure in the drop-downs like the <i>Structure</i> menu in the top navigation bar.
<b>Description</b>	Used to describe the meaning of the structure to the users.
<b>Owner</b>	The owner of the structure. Only JIRA administrators can change the owner.
<b>Permissions</b>	Define who can view, edit or configure the structure. See <a href="#">Structure Permissions</a> for details.
<b>Require Edit Issue Permission flag</b>	When <i>Require Edit Issue permission on parent issue to rearrange sub-issues</i> flag is set, additional permission constraints are applied to figure out what changes the user is allowed to make. See <a href="#">Structure Permissions</a> for details.

Edit Structure

Name \*

Mars Colonization

Description

Mars colonization plan.

Owner

User: eugene

Permissions

User permission level is calculated by applying rules from this list, from top to bottom. The last matching rule takes precedence. Structure owner and JIRA administrators always have Control permissions.

1. By default, permission level is **None**
