

Adding Existing Issues to Structure

You can add an issue to a structure both from the [Structure Board](#) and from the [Issue Page](#).

On the Structure Board open the text or JQL search on a [secondary panel](#), find the issues you need and add them to a structure using [drag-and-drop](#), [copy](#) /[paste](#).

Instead of search you can also open a structure, which contains the items you are looking for and add them to your structure from there.

You can also add multiple items at once. To do that, [select the items you need](#) and add them using [drag-and-drop](#), [copy/paste](#).

The screenshot displays the Jira interface with two panels. The left panel, titled "John's Structure", shows a list of issues with columns for Key, Summary, Progress, TP, and Assignee. The right panel, titled "JQL", shows a search for "type = epic" with a list of results. A red circle highlights the "More" button (three dots) next to the "OFW-1" issue in the JQL results, and a red arrow points from this button to the "Add" button in the top toolbar.

Key	Summary	Progress	TP	Assignee
HDE-48	Performance			Donald Duck
HDE-13	Fuel Efficiency			John White
HDE-4	Strange effect			M. Reynolds
HDE-30	Double the G power			John White
HDE-4	Strange effect			M. Reynolds
HDE-7	Warp drive modification			John White
HDE-27	Automatic hyper-drive			John White

Key	Summary
SP-4	Flatten building site - Our theme park needs a new site
RM-1	Triple Helix Rollercoaster - The triple helix rollercoaster
OFW-1	Overunity Ferris Wheel - @albert we'll need a new site
MKT-4	'Theme Park is Safe' campaign - We need a new site
LHMGR-2	Large Hadron Merry-go-Round - Merry-go-round
JTCE-1	Journey to the center of the Earth
HDE-51	Defense capabilities of Hyperdrive Engine
HDE-48	Performance
HDE-29	Hyperdrive
EMPR-82	Galactic Empire

On an Issue Page, select the structure where you need to add an issues and use the [Place](#) button.
