

Removing Synchronizer

You can remove an installed synchronizer at any time if you have **Control** permissions on the structure.

1. Open **Manage Structure** page using top navigation Structure menu.
2. Find the structure you need to remove a synchronizer from. You can look at *Sync With* column to see which synchronizers are installed in a structure. Click **Settings** link for the selected structure.
3. Find the synchronizer in the list and use **Delete** link to remove it.

Note that if the synchronizer is currently performing an incremental sync or resync, it will be allowed to finish.
