

# Resources

Structure.Gantt allows you to track resource usage on a project (or multiple projects). If you used the [Structure Wizard](#) to create your Gantt chart, you may have already assigned resources for your chart. If not, or if you need to change your resource assignment, see [Resource Assignment](#) to assign resources to your tasks.

To view Resource information, click the Show Resources button  or switch Layout to "Gantt + Resources."

✔ Not seeing any resources? Make sure you've [configured](#) them!
