Structure for Jira

When opened in a viewport, the user will be redirected to: https://wiki.almworks.com/documentation/structure/latest/cloud/structure-for-jira-133370674.html.

Structure is a project and portfolio management tool that helps users visualize, track and manage progress across Jira projects and teams. It does this with adaptable, user-defined, issue hierarchies presented in a familiar spreadsheet-like view of Jira issues.

Structure has a number of powerful features:

- Multiple, shareable structures
- Unlimited hierarchies
- Customizable views
- Totals, aggregate calculations
- Powerful user interface with keyboard shortcuts
- On-the-spot issue creation and editing

What's New?

- Updated configuration screens for Automation
- Priority and Epic Link (classic projects) fields are now editable from structure
- Linked Items Extender- now updates Jira links as you move issues in the structure
