

Why should I upgrade to the Data Center approved app version?

Your large-scale Data Center instance has different needs than a traditional server, and you should be using apps specifically tested to function efficiently and reliably in such an environment.

Even for vendors who have developed apps for Data Center in the past, such as ALM Works, the new Data Center approved app program holds us to a higher standard, putting our apps through additional and ongoing testing to ensure we continue to meet the ever-more-demanding needs of Data Center environments.
