

Removing a Slice

You can remove a slice from your configuration by deactivating it or deleting it.

Deactivating a Slice

You can turn a slice on or off with the **Active** toggle next to the slice name. Inactive slices will remain in your slice list (in case you want to reactivate them later), but will not affect your Gantt chart.

Save Cancel

When a slice is active, the pie icon beside its name is filled in . When the slice is inactive, the pieces are empty .

Deleting a Slice

To delete a slice, click the trashcan icon or the **Delete** text beside it.
