

# Sub-tasks Extender

The Sub-tasks Extender pulls in sub-tasks belonging to issues already in the structure. The sub-tasks will be placed beneath the issues in your hierarchy.

Top-Down Automation

Basic view

Key	Summary	Progress	Status	Assignee	Icons
Top-Down Automation					
Add sub-tasks					
Add issues belonging to epics					
Insert epics from "SAFe Team A Scrum"					
SPR-2	SAFe Epic 2		BACKLOG	M. Reynolds	
STMA-10	Team A Story 10		TO DO	C. Bacca	
STMA-9	Team A Story 9		TO DO	C. Bacca	
STMA-20	Sub-task 4		TO DO	C. Bacca	
STMA-8	Team A Story 8		TO DO	Albert	
STMA-17	Sub-task 1		IN PROGRESS	H. Solo	
STMA-18	Sub-task 2		IN PROGRESS	Albert	

In the example above, we built our hierarchy by:

- 1. Adding all our epics with Agile Board Inserter
- 2. Placing our issues beneath them, using the Stories Under Epics Extender
- 3. Placing sub-tasks beneath issues, using the Sub-tasks Extender

## Customize Your Extender

Each Sub-tasks Extender can be customized to create exactly the hierarchy you need.

Extend with Sub-tasks

Runs As Oadmin Admin

Sub-task Types☒ All available sub-task types

Sub-task Technical task

Extend LevelsAll levels up to 10

Extender does not consider groups on the current level and all nested levels.

☒ Allow changes via Structure

ApplyCancel

You can customize:

**Sub-task Types** - Allows you to specify which types of sub-tasks should be included in your structure. To include all sub-tasks, check the "All available sub-task types" box.

**Extend Levels** - Allows you to select which levels in the hierarchy the extender should be applied to:

- *All levels up to 10* (default) - The extender will be applied to the first 10 levels of the hierarchy, starting from the level where the extender itself is located.
- *All levels* - The extender will be applied to the current level and all its descendants.
- *Current level only* - The extender will only be applied to the same level in the hierarchy as the extender itself.
- *Manual levels range* - You can specify which levels the extender is applied to.

See [Generator Scope](#) to learn more about customizing levels.

**Allow changes via Structure** - If this option is checked, sub-tasks will be assigned to new parents as you move them in your structure.
