

Special Columns

Some columns in the Structure widget are special. They either display structure-specific information or allow you to perform actions with the issues in the structure.

- [Summary Column](#) — The Summary column displays the issue summary and part of the issue description. Sub-issues have the text in the Summary column indented relative to their parent issue.
- [Progress Column](#) — The Progress column displays the aggregate issue progress, based on the issue's state, time tracking info and its sub-issues.
- [Flags Column](#) — The flags are the small icons displayed at the left side of the table to mark specific issue states.
- [Multi-Selection Column](#) — The Multi-Selection column lets you select more than one issue for operations like drag-and-drop.
- [JIRA Actions Column](#) — The JIRA actions column displays the gear button that calls out the menu with available JIRA actions for the issue.
