Revert Effector Changes
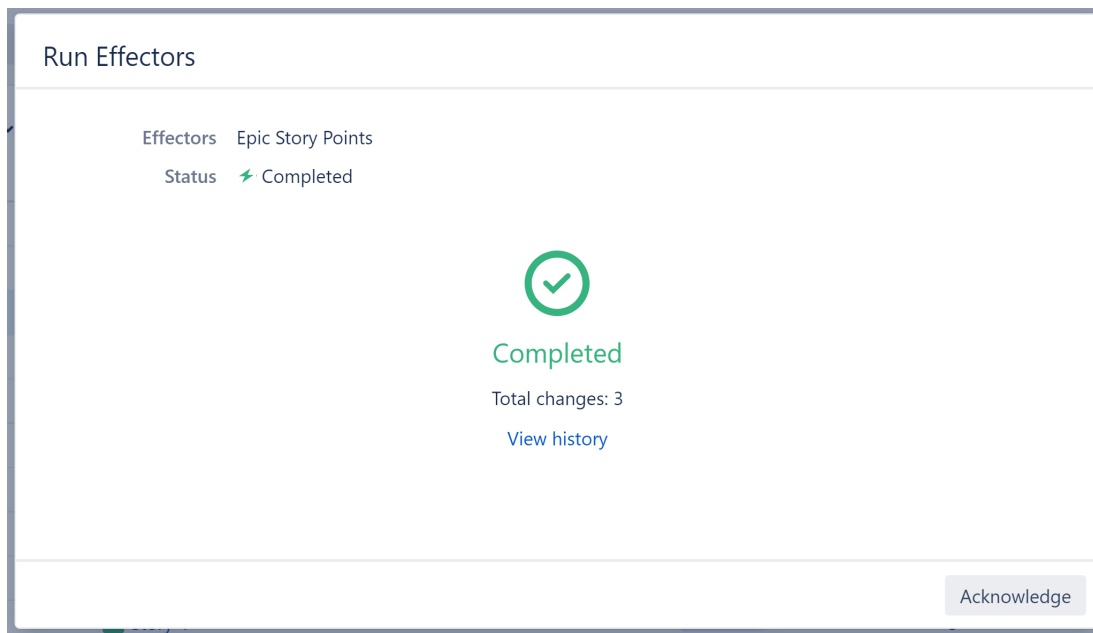

You can revert changes made by an Effector:

- Immediatiately after running the Effector
- At any time, using the Manage Effectors page
- You can even revert changes made during a revert process

Revert Effector Changes Immediately After an Effector is Run

Once an Effector finishes applying changes, you will see a confirmation letting you know that all changes were made. If the Effector is unable to make some or all changes, that information will be displayed here as well.

To revert any of these changes, click the **View history** link to open the Effector Process Audit screen. From there, locate the change you need to revert and click its **Revert** link. To revert multiple changes, select each and click **Revert Selected**, or click **Revert All**.

Revert Effector Changes using the Manage Effectors Page

You can review and/or revert changes made by Effectors at anytime. Simply go to the Structure menu and select **Manage Effectors**.

The Manage Effectors page lists every time an Effector has been run.

Manage Effectors

ID	Effectors	Structure	Run By	Started	Finished	Status	Actions
66	**Due Date** to issue field **Finish Date**	Gantt Chart Demo	M. Reynolds	24/Mar/20 3:09 ...	24/Mar/20 3:09 ...	⚡ Completed	Revert
65	**Attribute** to issue field **Start Date**	Gantt Chart Demo	M. Reynolds	24/Mar/20 3:08 ...	24/Mar/20 3:08 ...	⚡ Completed	Revert
33	**Σ Formula** to issue field **FinishCost**	Cost Analysis	M. Reynolds	13/Mar/20 11:25...	13/Mar/20 11:25...	⚡ Completed	Revert

From here, you can review and revert changes from these Effectors.

- To revert all changes made by an Effector's run, click the **Revert** link next to the appropriate run.
- To review each change and select only certain changes to revert, click the ID for the run.

⚠ In either case, this will revert the current field values to the values prior to this Effector's run, even if other changes have been made since.

Revert Changes Made During a Revert Process

After you revert changes from an Effector, a new process will be added to the Manage Effectors screen. You can review and revert changes from this process just as you can with any other.
