

Adding Issues to Structure

You can add an issue to a structure both from the [Structure Board](#) and from the [Issue Page](#).

On the Structure Board, use [Search](#) to find the desired issues and add them to a structure using [drag-and-drop](#) or [copy/paste](#).

When searching, make sure the [JIRA Search Results](#) secondary panel is switched on. Use **More Issues** button on the search panel.

On an Issue Page, if the issue you are viewing is not in the current structure, the Structure section contains [Pinned Current Issue secondary panel](#) and you can drag it to the current structure from there. You can also [select a different structure using Structure Selector](#). Besides, you can use Search on the issue page as well and add other issues to the structure.
