

Default Structure

A default structure is displayed when no specific structure has been selected, typically the first time a user opens Structure. The default structure may also be displayed on [Issue Pages](#) and [Project Pages](#) when the **Auto-switch to default structure** option is selected.

Default structures can be set by:

- Jira administrators can [change the system default structure](#)
- Project managers can select a [project-level default structure](#) for any project that is enabled for Structure
